Ser 04L433/065
MAY 30 2001

From: Commander, Naval Sea Systems Command

Subj: CONSOLIDATED PROCEDURES FOR BASIC FUNCTIONS IN THE
INSPECTION, PACKAGING, HANDLING, STORAGE AND TRANSPORTATION
OF GENERAL EQUIPMENT CLASSIFICATIONS

Encl: (1) Handbook for Inspection, Packaging, Handling, Storage
and Transportation (IPHS&T)

1. Enclosure (1), which supercedes SL460-AA-HBK-010 of 1 February 1991, is provided as a guide for personnel engaged in the IPHS&T of selected equipment under the material management cognizance of the Naval Inventory Control Point Mechanicsburg and the Naval Sea Systems Command. These procedures are intended as a working aid to personnel engaged in a warehouse function and as a supplement to existing standards and specifications.

2. This Handbook does not replace existing packaging and packing specifications that are needed to cover special conditions. Individual situations may require that specialists in packaging call on their experience to tailor unique packaging directions. The IPS&T Handbook outlines the minimum care necessary to maintain new equipments in their present condition and to hold to a minimum any degradation of material turned in by users. It does not pertain to nuclear reactor materials

3. In lieu of printing and mailing hard copy documents, the IPHS&T Handbook will be made available on the Naval Sea Logistics Center home page at 'www.nslc.navsea.navy.mil'. It will be located within the "Technical Logistics Support Services" section with a subheading of "Logistics Policies and Procedures".

4. The NAVSEA point of contact for the IPHS&T Handbook is Ms. Sharon Mruk, SEA 04L433, (202) 781-1679, DSN 332. The e-mail address is 'mruksk@navsea.navy.mil'.
